

myShipINFO™ Mobile Dashboards offer on-the-go visibility from virtually any web-enabled Smartphone, including Blackberry, iPhone and Android!

## enVista's myShipINFO™ Mobile Dashboards

Powerful Web-Based Visibility to Your Transportation Spend. Now From Your Mobile Device.

Access current transportation metrics anytime, anywhere in an easy-to-read graphical format. enVista's Mobile Dashboards make the business of managing transportation significantly easier and more convenient with instant access to transportation metrics and spend on your mobile device.

Transportation professionals need ready access to their current transportation data for rapid decision-making and reporting. enVista's Mobile Dashboards make the business of managing transportation significantly easier and more convenient with instant access to transportation metrics and spend on your mobile device.

### The Benefits to You.

- Obtain powerful, portable Business Intelligence in the palm of your hand.
- Access your transportation spend through customizable Dashlettes anytime, anywhere in an easy to read, graphical format.
- Save time evaluating key performance indicators (KPIs), analyzing trend patterns for accessorial spend over time and reviewing your carrier on time delivery targets.
- Acquire ready access to your most current transportation metrics. Dashboards are automatically populated with up-to-date invoice data.
- Attain comprehensive, flexible data mining capabilities. Easily customize mobile dashboards any time based on the data elements and date ranges that are most important to your business.

### Mobile Access to Your Most Important Metrics.

- Net Spend Over Time
- Annual Spend Summary
- Exceptions
- Shipments By Region
- Carrier Score Card
- Service Level KPIs
- Accessorial Charges Over Time
- 13-Month Recovery
- And more!

**"The Mobile Dashboard solution provides incredible visibility to my real-time data. I can access the information from anywhere, on-demand, when I need it the most. enVista has given me the access I need to answer questions about our transportation spend while in meetings, at home, and when traveling. What an extremely powerful tool to have in my back pocket."**
